House Beats Brannan Farm Subsidy Program

To Continue Price Support Program

Washington, July 21—(AP)—In a major defeat for the Truman administration, the House today scuttled the Brannan farm subsidy plan 239 to 170 and voted to continue the present price support program through 1950.

The Brannan plan, offered by the Secretary of Agriculture, would let the market price of perishable foods drop to their natural level. If they went below a point considered fair to farmers, the government (meaning the taxpayers) would pay subsidies to the farmers.

Under the present program, the government keeps surpluses off the market by means of purchases and loans. Prices of major commodities are supported rigidly in this way at 90 per cent of parity, which is a price aimed at giving the farmers a "fair" purchasing power. Any losses on such operations are made good by the taxpayers.

Passed 239 To 170
The bill continuing this program another year was passed and sent to the senate on a vote of 383 to 25 but the previous rollback by which the Brannan plan was beaten, 239 to 170, was the crucial test.

The House also made another major decision—shouting approval of an amendment to kill the Aiken farm law enacted by the Republican-controlled 80th congress. Set to become effective in 1950, this law would permit a flexible 60 to 90 per cent of parity support for major crops.

A Democratic-Republican coalition, headed by Rep. Gore (D-Tenn.), took complete charge of the House, and not even a personal appeal by Speaker Rayburn could save the day for the administration. Many men—such as Gore and Monroney of Oklahoma—who have supported many administration bills, joined the opposition to the Brannan plan.

Supported By Labor
Some members of the coalition said the plan, which promised cheaper food for consumers, got its support principally from organized labor—not from farmers. They argued that subsidies would make farmers wards of the government, and would lead to a peacetime OPA and cost billions more than present price supports.

Brannan's backers warned, on the other hand, that under the present program the consumers may be saddled with huge costs to keep prices up while seeing food "rot on the ground."

The House agriculture committee approved a three-crop trial run of the Brannan plan, and this proposed experiment got the administration nod. But the House said no in a loud voice today.

The amendment to wipe out the Brannan plan and substitute a year's continuation of the present program was offered by Rep. Gore. On the showdown on the Gore proposal, 79 Democrats and 160 Republicans joined the coalition, while 165 Democrats, four Republicans and one American labor member supported the administration.

2 Gasoline Stills Explode Injuring Over 20 Workers

Baltimore, July 21—(AP)—Two big gasoline stills blew up today in a spectacular fire which critically burned four men and scorched two dozen more.

Ten workmen at the Esso Standard Oil company in the suburban industrial Canton district were hospitalized. More than a score of others, including six firemen, were treated for burns.

Three hundred firemen battled in intense heat for an hour before putting out the roaring flames which threatened 48 other gasoline tanks.

The four most seriously burned were Charles Scheppling, 37, Kenneth Banner, William Emmerich, and John J. Aires, 43.

Company officials said they could not estimate the damage immediately. They said the explosion probably was caused by a leaking pipe.

2 MONKEYS DESERT U. OF CHICAGO LAB

Chicago, July 21—(AP)—A pair of rhesus monkeys have deserted the scientific life for the easy ways of the big city.

Instructors and students from a University of Chicago laboratory—where the monkeys were used for experiments—are hunting for the pair. They disappeared last night. One was spotted on a roof two blocks from the lab today, but by the time police arrived, it disappeared.

Churchill And Bevin Question FDR Decision

London, July 21—(AP)—Two of Britain's top wartime leaders questioned today the wisdom of President Roosevelt's "unconditional surrender" policy toward Germany.

They were Winston Churchill, who nodded agreement at Casablanca when President Roosevelt first announced such a fight to the finish in 1943—and Foreign Secretary Bevin, who was labor minister in Churchill's war cabinet.

Words of the American president dead five years were quoted in the House of Commons during a debate on foreign affairs in which Bevin charged that unconditional surrender "left us Germany as a snambles."

Both Bevin and Churchill also criticized fluctuations in the American attitude toward the dismantling of German war plants.

They attacked the so-called Morgenthau plan which Churchill himself initiated with Roosevelt at Quebec in 1944. This called for turning postwar Germany into a farming country by stripping away her industry. The plan subsequently was dropped.

Churchill said he was "sorry I put my initials to it."

Bevin, defending the labor government from conservative charges that it had been sluggish in German dismantling, said his efforts were "upset and hindered" by the United States.

Looking at Churchill, the foreign secretary said it was rather hard to have conservative leaders criticizing policies in Germany after the unconditional surrender policy left Germany a shambles.

Churchill, now leader of the opposition, replied he had agreed to the Roosevelt "unconditional surrender" policy, but only after the term was used by the president "without consultation with me."

"I was there on the spot and I had rapidly to consider whether our position in the world would justify me in not giving support to him," Churchill said.

"I did give support, but it was not the idea I had formed in my own mind."

"If the British cabinet had considered these words around the table they would have advised against it."

"But, working in a great alliance with our friends from across the ocean, we had to accommodate ourselves to it."

Dean Milk Plant Sues Seven Dairies For Price Fixing

Chicago, July 21—(AP)—The Dean Milk company sued seven other large dairies, a chain store and one of its officers, for \$15,000,000 triple damages today, charging kick-back and price fixing conspiracies.

The federal suit was believed the largest ever filed here in a case of its kind.

Dean claimed the companies had tried to freeze it out of the milk market here through a system of secret rebates and price-fixing in violation of the anti-trust laws.

It contended damage to its business over a five-year period amounted to \$5,000,000.

The same companies were indicted by a federal grand jury last July on similar charges. No date has yet been set for trial of the criminal case.

Named defendants in Dean's suit are the National Tea company; John F. Cuneo, chairman of national board; Borden company; Bowman Dairy company; western United Dairy; Capital Dairy; Rundberg Dairy; Meadowmoor Dairy and the American Processing and Sales company, successor to Hawthorn-Mellody Farms Dairy, Inc.

UAW Gives Notice Of Strike At Ford Plants In 10 Days

Detroit, July 21—(AP)—The state of Michigan was given official notice today of a threatened strike of 106,000 Ford Motor Co. employees.

The CIO United Auto Workers, singling out Ford to spearhead its pension and wage demands, filed a 10-day strike notice with the State Labor Mediation board.

Efforts by the board to mediate the dispute would be "without avail," said UAW National Ford Director Ken Bannan.

Italy's Chamber Of Deputies OK's Pact 323 to 160

Rome, July 21—(AP)—Italy's chamber of deputies ignored a protest from Soviet Russia and approved the North-Atlantic treaty 323 to 160 today.

Approval by the senate, expected by a slight margin, will complete parliamentary ratification. The signature of President Luigi Einaudi will make it official.

Russia charged yesterday—in notes to the United States, Britain, France and Italy—that Italy violated terms of her peace treaty when her government signed the Atlantic Pact by invitation of the western powers. The United States, Britain and France were accused of responsibility.

The Soviet argument was that the North Atlantic treaty, which binds 12 western European and American nations to oppose aggression, is really aggressive and aimed at Russia and her satellites. The Russian notes said that, in signing the peace treaty, Italy pledged not to do anything against the other signatory nations (which include Russia) "and consequently not to join any alliance or groupings pursuing aggressive aims."

Foreign Minister Carlo Sforza told the chamber he was astounded by the charge. He called attention to the reply of Atlantic pact ministers to a similar Russian note last April. The ministers replied that the pact was not an aggressive alliance.

Premier Alcide De Gasperi's Christian Democrats dominate the chamber and passage of the pact was a foregone conclusion. Eight of the deputies abstained.

Charge 6 Persons With Murdering Wealthy Recluse

Chicago, July 21—(AP)—Six persons who have admitted slugging and robbing a wealthy 79-year-old Chicago recluse were reported named in a true bill charging murder voted by the grand jury today.

The victim, Herman Engelhard, died of injuries.

The six, all negroes, are: Vernon Seymour, 24; Mrs. Erlene Madison, 25; Calvin Huffman, 30, all of Chicago; Albert Henderson, 23, now serving a robbery sentence in Joliet penitentiary; James A. Howard, 28, serving time at Leavenworth penitentiary on a charge of possession of a machine gun; and McKinley Giles, 33, now in Ohio State penitentiary for a robbery in Cleveland.

Assistant State's Attorney Abbey Blatberg quoted Giles as saying he and Huffman knocked at the door of Engelhard's south side home April 30, 1948, and then when Engelhard opened it, the men slugged him with a blackjack and an iron pipe.

Giles fled Chicago two days later on learning of Engelhard's death. Blatberg said.

Lays Helpless As Bees Swarm Over Him 45 Minutes

Kendallville, Ind., July 21—(AP)—An 87-year-old beekeeper suffered a heart attack while tending his bees today, lay conscious but helpless 45 minutes while bees stung him over his entire body, and survived.

Charles W. Krewitz, the beekeeper, upset a hive when he fell after suffering the heart attack. The infuriated bees swarmed over him until neighbors succeeded in driving them off with smoke pots and nettles.

Krewitz was reported in critical condition tonight at McCray hospital here.

Illinois Polio Cases Reach 171

Springfield, Ill., July 21—(AP)—Fourteen new cases of infantile paralysis were reported today to the State Health Department, bringing the total in Illinois this year to 171.

More than two-thirds of the cases occurred during the first 20 days of July. The total for the month to date is 121. The Health Department has predicted the number of polio cases will reach 2,000 for the year.

Three of the cases reported today were from Chicago and the remaining 11 from downstate. In Marion county 23 persons contracted the disease in the last 20 days. Fifteen were Centralia residents.

Truman Says Secret Meet Not Too Important; Hits One Who Told Press It Was To Be Held

Washington, July 21—(AP)—President Truman said today that his latest A-bomb secrets with Britain, following another conference on Capitol Hill yesterday, legislators indicated a belief that Mr. Truman would not divulge the secrets to the British without the approval of Congress.

The question of secrecy cropped up at another point in Mr. Truman's news conference today. It was in connection with a senate committee investigation of so-called "five-percenters" persons charging a fee for getting government contracts.

In response to a question, Mr. Truman said his military aide, Gen. Harry H. Vaughan, will be permitted to testify if called by the senate investigators. He said he had read all the stories linking Vaughan with the manufacturers' agents, but he doesn't believe them.

There have been demands that the outspoken Vaughan be summoned before the senate group. Senator Mundt (R-SD) said yesterday the habit for four years of holding conferences at the White House and

Senate Ratifies Atlantic Alliance By 82 To 13 Vote

Washington, July 21—(AP)—The Senate vote approving the Atlantic pact tonight empowered President Truman to establish America's defensive frontiers against Russia in the heart of Europe.

That is exactly what he now proposes to do as quickly as possible—not only to keep the Soviets at arms length but also to spread the cloak of American power over the borders of weaker states.

The United States thus embarked on a revolutionary new course in its foreign policy. It is pledged—or in a legal sense shortly will be—to act in case any one of 10 European area nations, or Canada, is attacked.

Program Of Mutual Aid
It is committed to a program of mutual aid and expects to share a single grand strategic plan for the defense of the whole western world.

Treaty supporters believe greater assurance of world peace will result from all these actions and arrangements; critics have denounced the alliance and its companion rearmament program as a new incitement to Russia.

The state department, which negotiated the unprecedented pact, and military leaders believe the policy of close military ties with western Europe is peacetime in line with the harsh realities of the age of atomic bombs, round-the-world airplanes and guided missiles.

The avowed aim of the 12-nation alliance is to create a concentration of power so strong that any potential aggressor nation—as western leaders claim Russia is—would be discouraged from attacking.

Conforms To U.N. Purpose
President Truman says this conforms to the purposes to the United Nations, and the leader of the other 11 nations have expressed the same view. Whether the U.N. is strengthened or weakened by the pact, however, may well depend on whether the United States in the long run uses the world agency or the regional alliance as the primary instrument of its world policies.

The pact brings together the United States and Canada (with defense lines running far into the Pacific as well as Europe); the five members of the western European union—Britain, France, Belgium, The Netherlands and Luxembourg; two Scandinavian states—Norway and Denmark; one southern European nation—Italy; and two countries with key positions in the Atlantic—Iceland and Portugal.

The immediate concern of the Atlantic powers under the pact will be with military problems and the problems of diplomacy growing out of changes in the world military situation. For the United States this means primarily decisions in congress on an arms program. The Truman administration wants \$1,130,000,000 to supply arms to Atlantic allies in Europe, plus \$320,000,000 for Greece, Turkey and other "free nations."

BETTY HUTTON AND HUBBY MAKE UP

Beverly Hills, Calif., July 21—(AP)—Actress Betty Hutton and her camera manufacturer-husband, Ted Briskin, have made up after their latest in a series of domestic quarrels.

"We've reached an understanding," Betty told her studio. "We agreed that our two children are too important for us to be apart."

They were married in 1945. Their latest separation occurred a few days ago.

Man Dies On 104th Day Of Fast He Imposed On Self

Chrisman, Ill., July 21—(AP)—A 31-year-old turret lathe operator died last night on the 104th day of a self-imposed fast "to repent for my sins."

He was Joseph D. McCullister, whose father, Charles, had endured a similar 30-day fast before his death two years ago.

The younger McCullister began to do without food last April while living with his wife, Marilyn, 32, in an auto trailer at Hammond, Ind.

The faster told Hammond police who questioned him "The Lord told me not to eat. I've got to repent for my sins. I can't eat again until I get an okay from God, himself."

McCullister's fast was somewhat relieved for a while, against his will, when Judge William A. Murray of Hammond ordered him into a Gary, Ind., hospital. There, he was fed liquids into his veins.

Last month, after a sanity hearing, Judge Felix A. Paul released McCullister in care of his widowed mother, who brought him to her home here June 25.

U.S. Defensive Frontiers Now In Mid-Europe

Washington, July 21—(AP)—The Senate vote approving the Atlantic pact tonight empowered President Truman to establish America's defensive frontiers against Russia in the heart of Europe.

That is exactly what he now proposes to do as quickly as possible—not only to keep the Soviets at arms length but also to spread the cloak of American power over the borders of weaker states.

First U.S. Woman Treasurer Takes Over U.S. Vaults

Washington, July 21—(AP)—Assured by six accountants that the sum is correct, Mrs. Georgia Neese Clark today took formal custody of the riches in the U. S. Treasurer's vaults, \$27,424,341,375.78—and 2-3 of a cent.

Mrs. Clark is the first woman treasurer of the United States. She took office a month ago.

The 2-3 of a cent turned up on a 113-year-old bond issued by the state of Tennessee. It totaled \$1,666.66 2-3.

But it's uncollectable. The bonds were issued to pay for a road. Tennessee said Union troops tore it up and the federal government wouldn't pay the damage. So Tennessee wouldn't pay the bonds. They had been acquired by the government as an investment for Chickasaw Indian tribal money. To make awards to the Chickasaws, congress ordered the treasury to pay five per cent interest on the Indian fund.

So the treasury pays the interest and hangs on to the bonds.

JIMMY STEWART TO WED
Hollywood, July 21—(AP)—Actor Jimmy Stewart said today that he and New York society woman Gloria McLean will be married some time next month and spend their honeymoon in Hawaii. The couple announced their betrothal last month.

They were married in 1945. Their latest separation occurred a few days ago.

He meant it or was "just talking through his hat" when he remarked recently that he knows of about 300 five-percenters operating around Washington.

The bemuddled Vaughan appeared unperturbed as he stood behind the President's desk during the questioning.

When asked if he believed there were 300 five-percenters operating here, Mr. Truman said it was the business of reporters to find out about those things.

The questioner remarked that reporters are often checkmated when seeking information. The Blair House meeting was cited as an example.

The President replied he tries to help reporters all he can, but that the Blair House is his private residence. He flung a good-natured challenge at the reporter: Are there any secrets around your house?

Mr. Truman said he has been in the habit for four years of holding conferences at the White House and

Stevenson Takes State Police From Politics

Springfield, Ill., July 21—(AP)—Democrats by Jan. 1, 1951. Republican appointees under former Governor Green now are in the majority.

From then on, all appointments, promotions, demotions and removals would be in the hands of a three-man, bipartisan police merit board. Decisions must be made without regard to politics.

The board—to be named later on by Stevenson with Senate consent—will be empowered to establish physical, mental and character standards for all positions.

The board will hold hearings before downgrading or firing of officers.

Stevenson expects this system to eventually produce "as efficient and fearless a police" crew as there is in the country.

He approved a second bill prohibiting solicitation of police force members for political campaign contributions. Violations would be punishable by fines of \$50 to \$1,000 and six months jail sentence.

In a busy bill signing session, the governor kept a total of 48 measures. He kept an earlier promise by vetoing two appropriations to help finance a new building for the Institution for Tuberculosis Research in Chicago.

Heavy Electrical Storms Hit West Great Lakes Area

Chicago, July 21—(AP)—Heavy electrical storms hit local areas in the western Great Lakes region today.

Warm, humid weather continued in the eastern states, parts of the midwest, and the lower Mississippi valley. Drier, cooler air over the northern and central plains states moved eastward.

It was mostly cool and fair along the west coast, except for seasonal high temperatures in the inland southwest.

Extremely heavy downpours hit some central Illinois localities. Danville, in the eastern part, reported 5.8 inches of rain, with deep flooding in some of the town's low neighborhoods. Kewanee and near-by Tiskilwa, in western Illinois, got four inches of rain which sent streams out of their banks and brought railroad and highway washouts.

Chicago had 1.41 inches in a brief period of the morning.

Vote Comes After 13 Days Of Debate

Washington, July 21—(AP)—The Senate, by the overwhelming vote of 82 to 13, late today ratified the North Atlantic treaty pledging 12 nations to give mutual aid against aggression.

All reservations were defeated. Designed as a bulwark against any attack by Soviet Russia, the pact puts the United States into a military alliance with European nations for the first time in history.

18 More Than Needed
The 82 yes votes were 18 more than the two-thirds majority necessary to ratify.

The Senate refused to modify the United States stand in any way. Three bitterly contested reservations—declaring that the treaty does not commit us to send arms or go to war—were swamped.

The votes came at the end of 13 days of furious debate in which opponents of the treaty cried that it "is likely to lead to war."

But Secretary of State Dean Acheson issued a statement of gratification over the heels of the smashing victory: "The decisive nature of the senate vote makes clear to the world the determination of the American people to do their full part in maintaining peace and freedom."

20,000 Pay Last Homage To Justice Murphy In Detroit

Detroit, July 21—(AP)—A tall, neatly dressed negro stepped up to Frank Murphy's bier soon after it was unveiled in the City Hall today.

He stood there for several seconds, his lower lip quivering. Then he stepped aside, wiped his tear-filled eyes and waited patiently for 20,000 other admirers of the late supreme court justice to pass by.

In mid-afternoon police locked the doors on the still oncoming crowd. The negro stepped up to the casket again. He pulled a small silver crucifix from his coat pocket and pinned it on his idol. This time he burst into a full cry and had to be led away.

Only then did it become known who this man was. His name was Stanley Gordon. He had been Murphy's messenger boy when the man he was mourning was governor of Michigan.

But to Gordon Murphy had been more than an employer. He had given him money back in the depression to buy food for Gordon's hungry wife and two children. His words had given him hope. His encouragement had led him to a job as deputy Wayne county sheriff.

Union Agrees To End NY Bus Strike By O'Dwyer's Plan

New York, July 21—(AP)—Striking CIO transport workers today accepted Mayor William O'Dwyer's peace plan and voted to end an eight-day walkout on 30 bus lines.

They are expected to return to their jobs on lines of the New York City Omnibus Corp. and the Fifth Avenue Coach Co. After midnight. The two private firms carry about 1,125,000 passengers daily on Manhattan thoroughfares.

Dismissal of four mechanics led to the strike of 3,300 drivers and maintenance men.

However, the union broadened its grievances and demanded a 21-cent an hour increase in \$1.50 hourly wages and other contract benefits.

Basically, the agreement puts things back where they were before the strike. It calls for eventual arbitration of the issues that led to the strike and those that later were injected by the union.

Man Is Accused Of Shooting His Mother In Quarrel

Chicago, July 21—(AP)—Police today arrested a truck driver who was accused of wounding his mother in a quarrel over crowded housing conditions.

The man is Frank Marcomb, 24. Police quoted him as saying he shot his mother, Mrs. Pearl Neegen, 53, with a 32 caliber revolver because she had been "crabby" for two years over crowded housing conditions.

Police said Marcomb reported that he and his wife, Marjorie, have been living with Mrs. Neegen for two years because they were unable to find other living quarters.

Mrs. Neegen, he said, forced them to board out their two-year old daughter, Linda.

The mother was taken to a hospital with a wound in her side.

U. Of Washington Professor Eighth Red In U.S. Trial

New York, July 21—(AP)—A university of Washington professor fired as a Communist appeared today as the eighth defense witness in the Communist conspiracy trial.

He is Herbert J. Phillips of Seattle, who was in the philosophy department at the university 20 years. Two other faculty members were dismissed with him, one for being a Communist and the other on accusations of neglect of duty and an "ambiguous relationship" with the Communist party.

Phillips testified he had been a party member for 13 years but he got to say little else

HOW MUCH LOYALTY SHOULD LAWMAKER OFFER HIS PARTY?

How much party regularity should an intelligent law-
maker in Congress be expected to demonstrate?
If he goes down the line for his party 100 per cent,
critics may refer to him contemptuously as a "rubber
stamp." On the other hand, if he pursues a wholly indepen-
dent course he opens himself to charges of party dis-
loyalty.

Is there any middle path that might permit him to
recognize the realities of politics and still show some free-
thinking statesmanship?

It is the fashion in some circles to dismiss party pro-
grams and platforms as worthless. Undoubtedly they have
been on many occasions. But that doesn't mean they always
are—or should be.

When the people elect a President or Congress, they
are voting for some sort of program, even if only vaguely.
True, they often seem to pick a President because they
trust him as a man, but implicit in such a choice is a belief
he will produce a satisfactory program.

Political parties developed not merely to give the
people a choice among men but clear alternatives in na-
tional policy. If a party means anything, it must be de-
voted to the attempt to carry out the policies it stands for.

Therefore, it seems entirely fitting that a definite
measure of party regularity should be required of a law-
maker. How else can a President or a group of party lead-
ers translate programs into law?

To achieve results, party chieftains naturally need a
working majority in Congress. A President is stymied if
the opposition holds the edge. The opposition then will
try to enact its own program over his objections.

But if a President does have party numbers in his
favor he can enact his policies so long as his party mem-
bers in Congress remain loyal. As we have suggested, the
question is how much loyalty they should offer.

The best plan we have seen for drawing the line on
party regularity is this:

Let a party caucus decide what five or six proposals
are crucial to the execution of its program. The leaders
then would indicate that these "must" items and these
alone were to be regarded as a test of party loyalty.

Failure to support them would place a lawmaker in
peril of losing patronage and other party favors.

Other planks in the platform the congressman could
support or oppose, as he wished. And he would likewise
be a free agent in all lawmaking beyond the limits of his
party's expressed program. His chief guides in that area
would be his general political bent, his wisdom, his integ-
rity and his special interests.

This system would tend to balance a political respon-
sibility against personal responsibility, and perhaps to
make our parties more effective instruments of governing.

He Made 'em Grow Up Fast

By HAL BAYLE
New York—(P)—There is one sure
and simple formula for making a
profit in America.

It is to ask a large number of
people what they want—and then
mass produce it and sell it to them
at a price they can afford.
I would be rich myself if following
this easy formula except for one
thing. Every time I ask people what
they would most like to have they
all say:

"Money!"
And I'll be darned if I can think
up a way to manufacture money
cheaper than the government.
But up in Brockton, Mass., there
is a plain-spoken 53-year-old Yan-
kee who was cagy enough ten years
ago to ask this innocent question:
"Would you like to be taller?"
And one out of eight men said
"yes."

So Ben Stone did something for
the "little man." He put a height-
increasing shoe on the market. Now
he helps grownup people grow up
more—about two inches more.

Not A New Idea
It really wasn't a new idea. They
say that Alexander the Great, who
whipped the world and died trying
to surround a wing jug, padded his
sandals. They also say that Napo-
leon, a small fry with big fry ideas,
fixed his boots so that there was
considerable leather between his feet
and the heels he sometimes walked
on. And—ah-h-h-h! Hitler hiked up
his heels, too.

"But of course we don't like to
mention Hitler were height-increas-
ing shoes," said Stone. "We'd rather
mention George Raft, Frank Sinat-
ra, Bing Crosby, Al Jolson, Billy
Rose, Humphrey Bogart, Rudy Val-
lee and Dick Powell."
Stone says he has put his "elevat-
ors" on these gentlemen, and some
1,000,000 others in the last decade.
He did it by perfecting a shoe which
looks like normal footwear but has
a thick cork heel that makes a
midget feel like calling Primo
Carnera "sonny."

Helps Texans Feel At Home
He discovered cowboys, for ex-
ample, like to wear them on semi-
formal occasions when they couldn't
wear their high-heeled boots. They
helped a man from Texas really
feel like he was from Texas.
"Oddly enough," said Stone, "it

isn't the really small man who
ordinarily wants to add a couple of
inches to his height. A five-foot-
two fellow adjusts himself psycho-
logically to his height. He figures
he is what he is—and that's all he
is.

"Most people who wish to be
taller are men of average height—
from five-feet-seven to five-feet-
ten. Often as not they are going with
a girl who is an inch or so taller than
they are, and they just want to get
even with her. Or they want her to
look up to them."

"How tall are you?" I asked.
"Five-feet-ten-and-a-half," said
Stone, who stands up very straight,
and he added carefully:
"In my stocking feet."

RED SCHOOLS SPREAD PROPAGANDA

Hamburg, Germany—(P)—School-
children in the Soviet zone are being
used to spread Communist propa-
ganda, British military government
reported. Letters and drawings made
by members of a Soviet Zone Youth
Movement have been sent to the
British zone in an unusual way.
Police at Lauenburg, on the Brit-
ish-Soviet border, found two metal
cansisters in the river Elbe. The chil-
dren's letters and drawings were
inside the cansisters. They were ad-
dressed to children in the British
zone.

West German newspapers have al-
so reported that children in the bi-
zone have received letters from chil-
dren in the Soviet zone. The west
newspapers commented that the jar-
gon used showed that the letters
were obviously dictated to the chil-
dren in class by Communist-minded
teachers.

Three Cases Of Polio Reported In County

Three cases of poliomyelitis have
been reported to the Morgan Coun-
ty Health Department during the
past two weeks. All three are young-
sters, living in Jacksonville.

The first case was that of David
Antle, 224 South Mauvaisterre street.
He has semi-paralysis of one leg
and is quarantined at his home.
The two most recent cases are
Doris Holt, 9 years old, of 316 Lur-
ton street, and Carl Raymond Rob-
erts, three-year-old son of Mr. and
Mrs. Carl Roberts, Sr., 1620 Chilton
avenue.

Not Believed Serious
Both are at St. John's hospital in
Springfield. They are not believed
to be in serious condition.

With outbreaks of polio increasing
in every section of the country, par-
ents are urged to exercise every pre-
caution to protect their children
against this dread disease.

Adults are also reminded that
polio is not just a children's dis-
ease, although such an idea is a
popular misconception. One may be-
come a victim of polio at any age.

Lists Polio Precaution
The National Foundation for In-
fantile Paralysis has listed the fol-
lowing rules to be observed during
the polio season:

1. Avoid crowds and places where
close contact with other persons is
likely.
2. Avoid over-fatigue caused by

too active play or exercise, or irre-
gular hours.

3. Avoid swimming in polluted
water. Use only beaches or public
pools declared safe by local health
authorities.

4. Avoid sudden chilling. Remove
wet shoes and clothing at once and
keep extra blankets and heavier clo-
thing handy for sudden weather
changes.

Cleanliness Stressed
5. Observe the golden rule of per-
sonal cleanliness. Food should be
kept tightly covered and safe from
flies and other insects. The same
applies to garbage, which, where
other disposal facilities are lacking,
should be buried or burned.

Symptoms of infantile paralysis
are headache, nausea or upset stom-
ach, muscle soreness or stiffness
and unexplained fever.

If polio strikes, a doctor should
be notified immediately. Prompt
attention and treatment will often
prevent serious crippling, the Na-
tional Foundation pointed out.

Relatives Named In Strawn Will

The will of the late Mrs. Ida B.
Strawn, widow of Julius Gages
Strawn, which has been filed for
probate here, named her son, daugh-
ter and grandchildren as beneficia-
ries of the estate.

John Strawn and Mary Strawn
Wilson, the son and daughter, were
bequeathed certain property, after
which Mrs. Strawn directed that a
trust be set up with the Elliott State
Bank as trustee, the income to be
paid to several members of the family
including grandchildren, until they
reach majority.

A 400 acre farm two miles north of
Alexandria and residence property at
1200 West College avenue are in-
cluded in the estate. Mrs. Strawn left
instruction for reinvestment of funds
by the trustee.

Her will was made on Oct. 8, 1942,
appointing John Strawn and the
Elliott State bank as executors.
Witnesses were Lucille Chenoweth,
Harry K. Chenoweth and Edward
W. Cleary.

THE DOCTOR SAYS

Believe Infectious
Hepatitis Caused
By Virus Infection

By Edwin P. Jordan, M. D.
Written for NEA Service

Infectious hepatitis, or epidemic jaundice as it is sometimes called, is probably an old disease, but it has certainly received a great deal more attention in recent years.

All summer suits reduced
one half price or less.
EMPORIUM

A serious problem with infectious hepatitis came during World War II. The disease seemed to spring up (principally among military men) in many parts of the world. In some places it almost reached epidemic proportions.

The disease is almost certainly caused by an infection, most probably a virus. Presumably this accounts for the fact that its true nature remained so long unrecognized. It seems to involve the liver, principally, and the symptoms can be traced chiefly to that organ.

Fever Common

About half the patients stricken with the epidemic form of the disease develop fever which generally reaches about 103 degrees. The typical yellow color of the skin and eyeballs of jaundice is frequently not noticed until after the patient has been sick for several days. Actually the yellow color or jaundice varies a good deal from person to person.

Convalescence from a typical case of the disease often takes a long time. It is generally considered to run for about two months but may be much longer. In some the acute form seems to be followed by a chronic variety from which recovery is quite slow.

The treatment for the epidemic variety which seemed to work best during the war included strict bed rest early in the course of the disease. This bed rest was continued for a long time during convalescence because getting up too early often

seemed to bring back some of the symptoms. Another method of treatment which seemed to be helpful was the use of a diet containing a high proportion of protein foods, such as milk, fish, eggs, and cheese.

Much further research work is needed before all of the necessary facts which will lead to its prevention and better treatment can be accumulated.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

THE DOCTOR ANSWERS

By Edwin P. Jordan, M. D.

QUESTION: I had rabbit fever two years ago and would like to know if I can get it again or if I am immune.

READ THIS BEFORE YOU BUY ANOTHER CHUCK ROAST

Thousands Discover That
A&P's "Super Right" Meat Policy Means...
Better Eating...Better Value Every Time!

When is a chuck roast not a chuck roast? WHEN IT'S A NECK CUT! The neck cut is bony, the meat is coarse and stringy. Under some cutting methods neck cuts are sold as "chuck roasts" at very low prices, and real chuck roasts (Blade, Arm and Boston cuts) are sold at much higher prices.

A&P's "SUPER RIGHT" MEAT POLICY DOES NOT PERMIT THIS.

All A&P chuck pot roasts are genuine Blade, Arm or Boston cuts... the very choicest part of the chuck... and they're priced as low as possible. Considering how much more good eating they give you compared with a neck cut, A&P chuck pot roast is a BIG MONEY'S WORTH!

A&P NEVER SELLS NECK CUTS AS CHUCK ROASTS... Just one more reason why you can buy with confidence at A&P.

Customers' Corner

All customers expect honest weight from their grocer.

To assure you of honest weight at A&P we buy the finest scales, have them constantly checked for accuracy and put them in plain sight where you can see the dial.

And, of course, all our employees are thoroughly trained and strictly instructed to conform to our policy of 16 ounces to the pound.

If we should ever make a mistake in weighing your purchase, you will be doing us a favor if you call it to our attention.

We would appreciate any suggestions you may have to help us maintain our high standards of honesty and accuracy. For anything else we can do to make your A&P a better place to shop, please write:

Wheat closed 1-1/8 lower, July \$1.991-1/2, corn was 1/2 lower to 1 cent higher, July \$1.421-1/2, oats were 1-1/4 lower, July 66-68 1/2, rye was 1/2 to 2 cents lower, July \$1.54, soybeans were 3/4 lower to 7/8 higher, July \$2.721-1/2, and lard was 5 cents lower to 5 cents a hundred pounds higher, July \$11.37.

New York Stock Market

New York, July 21—(AP)—Demand for stocks faded away today and the price curve turned downward for the first time this week.

Most losses, however, were posted during the early morning and the market levelled off almost immediately.

Few issues slipped as much as a point. A good handful of stocks managed to work their way up from the day's lows.

Corporate bonds moved narrowly.

3-1 Win Gives Cards Series Over Boston

Boston, July 21.—(AP)—For the fourth time in as many starts against him, the St. Louis Cardinals teed off on Johnny Antonelli, the Boston Braves' \$70,000 bonus southpaw, for a 3-1 victory today to gain the odd win of a three-game series.

Lefty Harry Brecheen limited the tribunes to five scattered hits, including a single that enabled Eddie Stanky to extend his consecutive hitting streak to 19 games.

Founding out 10 safeties, all but two against Antonelli, who now has a 3-5 record, the Cardinals spotted the Braves a first inning run and then tallied in the second, fourth and seventh frames.

Raschi And Yanks Defeat Indians In 5-3 Contest

Cleveland, July 21.—(AP)—Vic Raschi won his 15th victory and Joe DiMaggio batted in his 28th and 27th runs in 21 games as the New York Yankees defeated the Cleveland Indians, 5-3, today, in a rubber game of the three-game series.

The triumph increased the Yankees' first place lead over the runner-up Tribe to five and a half games.

A crowd of 44,646, including 35,818 paying customers, who braved a rain shower just before the game started, saw the Indians get off to a 2-0 lead in the second inning.

Pitcher Early Wynn failed to hold the advantage, however, and was batted out in the eighth to be charged with his second defeat. He has won seven.

Raschi, who has lost only three this season, scattered eight hits for his fourth straight success over the Tribe. They have yet to beat him.

Once again DiMaggio was the biggest producer for the Yankees. He drove in two runs with a single to spark a three-run rally in the third. That uprising put the Yankees ahead, 3-2, but Joe Gordon's 14th home run in the last half of the third deadlocked the score at 3-3.

Thereafter Raschi held the Indians scoreless and allowed only four hits through the last six innings.

The Yankees scored what proved to be the winning run in the fourth. With two out, George Stinewiss doubled and after Raschi walked, scored on a single to left by Hank Bauer.

The Yankees got an insurance run in the eighth with a single to center.

Yogi Berra led off the round with a single and raced to third on another one-bagger by Brown. Southpaw Gene Bearden replaced Wynn and forced Charlie Keller to hit to turn the trick twice. He defeated Washington, 7-2, on June 14, and New York, 4-2, on July 16, without walking anybody.

Other walkless pitchers in the junior circuit are Bob Lemon, Cleveland; Art Houtteman and Hal Newhouse, Detroit; Ed Lopat, New York; Dick Fowler, Philadelphia; Red Embree, St. Louis and Paul Calvert, Washington.

The National appears to possess much the better control pitchers as 36 games were pitched with nary a base on balls issued. Johnny Sain of Boston and Joe Hatten are the only new winners. Sain, however, won his other walkless game.

Sain's teammate, Southpaw Warren Spahn, currently rates as the king of the control pitchers. He has pitched and won four games without allowing a pass. Cincinnati's Ken Raffensberger is next with three.

Those with two to their credit include Vern Bickford, Boston; Don Newcombe, Brooklyn; Everett Lively, Cincinnati; Larry Jansen and Dave Koslo, New York; Rip Sewell, Willie Werle and Tiny Bonham, Pittsburgh and Howie Pollet, St. Louis.

Pitchers with one walkless game include Dutch Leonard, Walt Dubiel and Johnny Schmitz, Chicago.

Freddie Hutchinson, making his second relief appearance in two days, took over for the Tigers when starter Ted Gray ran into trouble in the fourth as the Senators scored all their runs in that inning.

Hutchinson put out the Senator fire and pitched 5 1/3 scoreless innings to get credit for his sixth win of the year as against four losses.

REFUGE

By Mildred Cram and Harwood White

THE STORY: Mrs. Everson, a rich widow, believes that an atomic war is pending that will mean the end of the world. So she has equipped two trailers and has set out with her servants and a companion, the Marchese Dellacasa, to reach a place of safety. Where this place is, no one but Mrs. Everson knows. Mrs. Margaret Malone, who was hired along the route to replace a cook who left because she thought Mrs. Everson was crazy, has already regretted her choice and has tried to run away. But she is checked by the Marchese who persuades her to stay. Alan in the party is the chauffeur, Rudy, a former movie star, and Victor, a Filipino houseboy. Mrs. Malone finds Mrs. Everson very demanding and at breakfast she is touchy and temperamental.

... lone went back to the kitchen. Had the trailer stopped, she would have stepped out then and there. The smooth speed was maintained, hour after hour. There were few variations in the landscape that flowed past the windows. Occasionally, a distant table-land appeared, wheeled, disappeared. The sun climbed, implacably brilliant. Mrs. Malone busied herself in the kitchen, put her own room to rights, then straightened up the salon.

She was astonished to find small paintings set in the wall. One—a white horse rearing—was signed Chirico. Another held her puzzled for a long time. There was no signature. Only a blanching cow's skull, and a datura in full bloom. She had seen such skulls in the desert, and such flowers in the semi-tropical gardens along the coast near the sea. But never had she seen them together like this: the skull dry in death, the flower oily in life, yet strangely similar in form, in whiteness.

She remembered suddenly what the Marchese had said about things being associated that never were before. Faintly, she understood what he meant.

... SHE turned away from the painting to look at the books. Joe had been a great reader. He was always reading and calling out to her: "Come here a minute Margaret. Listen to this." Kipling, Conrad, Long passages from "Puck of the Olden" or "Lord Jim". Mrs. Everson's books were not familiar: Mrs. Malone ran her finger along the titles, but recognized none of them. Nor had she heard of the authors: Gide, d'Annunzio, von Hofmannstahl, Mallarme, Wilder, Bernheim, Rousseau. One shelf was all French and Italian. There were large, thin volumes of maps, scientific works, sociology.

... "To heck with it," Mrs. Malone said aloud. She enjoyed being alone in the room, free to examine the amazing ingenuity of its designers. Lifting what appeared to be a table-top, she discovered beneath it a miniature piano. There was a sturdy safe, too, built into the end of the sofa.

... AT 11 o'clock, the Marchese came from his room. He wore gray flannel slacks, a short-sleeved sweat-shirt and, as before, a silk muffler. He was carrying a very shiny and beautiful flute. Sitting crosslegged on the sofa, he lifted the instrument, adjusted his lips, and began to play a sad, off-key tune.

"I'm sorry to interrupt, sir," Mrs. Malone said, "but I've had no orders for lunch."

He paused long enough to say: "Salad. Any kind." Then returned to the plaintive melody, which he played over and over. Her teeth on edge, Mrs. Malone shut herself in the kitchen and concocted what Joe called her Missouri salad: hard-boiled eggs, crisp bacon, lettuce and mayonnaise.

At noon the insistent speed slackened, the brakes were applied and the trailers came to a stop at a filling station. From the window Mrs. Malone saw the attendants, young fellows wearing oil-stained uniforms with their names Sam and Bob chain-stitched above the breast pockets. They were squinting up at the trailer, open-mouthed. Behind them the usual pumps and a sudden sharp smell of gas.

Mrs. Malone said to herself: "Here's where I get off!" She wouldn't wait to pack her suitcase again. She'd just take her purse and her coat and beat it into the service station restroom. They'd drive off without her.

Mrs. Kenneth L. Smith

Mrs. Kenneth L. Smith and her three children, Sandra, Peggy and Dick, of 16605 Fifteenth N. E. Seattle, Wash., arrived Tuesday evening to spend a month visiting with her parents, Mr. and Mrs. R. W. Howerton, and sister, Mrs. F. O. Olsen, and many friends of this city.

"They will also visit at the homes of Mrs. Smith's sisters, Mrs. J. W. McDermott of Rosamond and Mrs. L. E. Hayes of Butler, while here.

Public Library Notes

To answer the needs of many inquiries who need to find the names of the manufacturers of specific articles—chains, bearings, globes, pyrometers—the Public Library has added the 1949 issue of MacRae's Blue Book to the reference shelves.

If you need escape from the heat the librarian suggests that you read 'Our Alaskan Winter' by Constance Helmrichs.

The Home Book of Quizzes, Games and Jokes is another addition to the recreation section.

Forty-Five in The Family is a small book in which Eva Burmeister tells of her experience as director of the Lakeside Children's Center in Wisconsin. Her sympathetic interest in her charges, professional skill and humorous style combine to make her book both enjoyable and informational.

Plans have now been completed by the Library Board for the decoration of the interior of the library in August. The library will be kept open during the work but the librarian suggests that borrowers might like to stock up with reading material before August 8 when the work will begin.

Summer Book Notes now ready for distribution include a list of books on religion, on health, literature and current affairs. Ask for copies at the circulation desk.

State C. Of C. Is Against Shifting Jobless Pay To US

Chicago, July 21—(P)—The Illinois State Chamber of Commerce said today it opposes the Hoover commission plan to shift unemployment compensation to the Federal Labor department.

Ormond F. Lyman, executive vice president, said this part of the presidential reorganization proposal would result in "biased administration" of federal benefits to the jobs.

The unemployment compensation and state employment services would be removed from federal security agency supervision under the reorganization proposal before Congress.

Lyman said "we believe that the point cannot lightly be dismissed that, being created to serve the welfare of labor, the department of labor may well find itself obligated to abandon the interest of the general welfare and, instead, to promote the basic philosophies of some spokesmen for organized labor."

Say Antihistamine Drugs Have Caused Serious Reactions

Chicago, July 21—(P)—A warning that "there have been serious reactions" to antihistamine may have been given today in the Journal of the American Medical association.

Drs. Hugh F. Rives, Berl B. Ward and M. H. Hicks, all of Dubuque, Ia., said that the death of one child has been attributed officially to an adult dose of such a drug.

"Since the antihistamine drugs have become available to the members of the medical profession, both the lay press and many physicians have hailed these preparations as practically non-toxic and as the solution to most allergic problems," the doctors wrote.

"The present indiscriminate use of these antihistaminic agents needs a critical review. Although we have found no other report of a fatality, there have been serious reactions."

Truckers Pledge To Keep Trucks In Weight Limit

Chicago, July 21—(P)—Major trucking firms of Illinois today pledged cooperation with Governor Stevenson in his campaign against overloaded trucks which damage state highways.

The Central Motor Freight association, representing most truck operators, suggested in a letter to Stevenson these four steps:

Joint enforcement of truck weight laws by state police, the highway department and the industry; a self-policing and educational program within the industry; formation of a committee of road users to consult with the state on truck problems; and employment by the trucking industry of a highway engineer to determine responsibility for road damage.

The letter, signed by Chester G. Moore, association chairman, said there is no doubt that some illegally overloaded trucks are one cause of highway damage, but most of their operators "are just as much an enemy to the legitimate truck operators as they are to the state."

Bread Bill Defeated By Special Interests

A bill supported by the Bakers association to require the enrichment of bread with vitamins was defeated in the Illinois legislature as a result of the opposition of milk and dairying interest. Robert J. Kaufmann Baking company of this city, said Thursday when he addressed the Kiwanis club.

Other states by law have required to bakeries to make only enriched bread, he said.

40 Years Experience

Kaufmann, who has had 40 years experience in the baking business, said that members of his family served as bakers in four wars. His grandfather was a baker with the Union forces in the Civil War; two uncles were bakers in the Spanish American war; he himself in World War I and his son in World War II also served as bakers.

The speaker traced the historical development of modern baking. "Bread making was an ancient art and the Egyptians were the first bakers," he said, "but it was not until 1850 that commercial baking was commenced in this country. In 1870 business was given great impetus by the introduction of the first compressed yeast," Kaufmann said.

War-time Difficulties

The Jacksonville baking executive told of the wartime difficulties of production when shortages of flour, sugar and lard prevailed. It was during this period that enriched bread was developed, he said.

Kaufmann told Kiwanians that wheat quality varies greatly from year to year. Good bread depends upon good wheat which is properly tempered and seasoned before milling. The best wheat, highest in protein value, comes from the northwest, he declared.

Kaufmann, himself a Kiwanian, was introduced by A. W. Applebee, program chairman.

Rev. Leslie G. Heuston, pastor of Central Christian church, was presented as a new member of the club.

Harve Atkins, local delegate to the convention of Kiwanis International held recently at Atlantic City, reported on the convention activities.

Dr. J. Y. Burbank Gives Account Of Merchant Marine

Scott County—Group No. 24 of the Men's Research forum were guests at the county home of Bluffs Monday evening. After a 6:30 dinner, a paper was read by Dr. J. Y. Burbank, giving a very interesting and factual account of the beginning, growth, and decline of the United States Merchant Marine from the time of the early settlers, who combined their farming with fishing and trading, to the time when the U.S. became involved in the Civil War.

Major maritime occupations were smuggling, deep sea fishing, whaling, and slave trading. Burbank said. The first formal shipyard was started in 1629 and ship building soon became a separate and important industry. As trade and navigation needs grew, ships were enlarged and improved, until the ships of the U.S. were competing successfully with ships of other nations for world trade, he continued.

The supremacy of the U.S. Merchant Marine for two centuries closed by the time of the civil war. Some of the causes of this decline were: the collapse of the gold boom in California, the Civil War, the policy of subsidization used by other nations, our own agricultural states opposing subsidies and a period of internal growth not dependent upon the sea.
